

<u>AC cables</u>	<u>generators.</u>
<p><b>25' 12/3 SJOW stinger.</b> 15 amp edison connectors..... <b>\$3/day</b></p> <p><b>50' 12/3 SJOW stinger.</b> 15 amp edison connectors..... <b>\$4/day</b></p> <p><b>50' 60 amp bates cable</b>..... <b>\$9/day</b></p> <p><b>50' 100 amp bates cable</b>..... <b>\$11/day</b></p> <p><b>100' 6/3 SOOW transformer to generator feeder cable.</b> The end are terminated with California style 50 amp twist lock connectors. This is only a 3 wire setup for 240v power from a put put to our step down transformer. The neutral pole is open.....<b>\$15/day</b></p> <p><b>50' 4 wire #2 Camlok</b>.....<b>\$15/day</b></p> <p><b>#2 Camlok 5 wire tie in kit.</b> Note: Check with the NEC and local authority having jurisdiction regarding the use of this electrical equipment as laws vary. Renter is responsible to use legally. ....<b>\$25/day</b></p>	<p><b>Honda Eu6500is.</b> Film modified inverter generator. Can be used solo or in conjunction with step down transformer for maximum power output. Two 120v 20 amp circuits or one 30 amp 240v circuit. Comes full with gas and an empty 5 gallon gas can. Renter must return unit full. .....<b>\$150/day</b></p> <p><b>Ryobi 2200 watt inverter.</b> Gas powered "suitcase genny". Perfect for small shoots where portability is crucial or only smaller LED lighting loads are run. 1800 watts continuous. Eco mode onboard for fuel conservation to be switched on after full electrical load is applied..... <b>\$50/day</b></p> <p><b>84 amp stepdown transformer.</b> This unit is one of the best electrical solutions for an indie production. In conjunction with the Honda 6500, the transformer will combine the two legs of the 240v system and combine them into a single 120v circuit providing the full potential of the generator (60amps). The transformer can also be used with different adapters on location with a 50amp welding plug or range plug to get a total 84 breakered amps to the transformer in 120v using a 100 amp bates output.....<b>\$75/day</b></p>
<u>splitters</u>	<u>dimmers</u>
<p><b>15 amp cube tap</b>.....<b>0.50/day</b></p> <p><b>20 amp edison quad box</b>..... <b>\$3/day</b></p> <p><b>Snakebite 110v, Cam-lok to 100 amp bates.</b> (Internal 100 amp fuse. Keeps the Fire Marshal happy)..... <b>\$9/day</b></p> <p><b>20 amp edison to 15 amp edison adapter</b>.....<b>\$2/day</b></p> <p><b>60 amp bates male to dual 60 amp bates female</b>..... <b>\$8/day</b></p>	<p><b>1000 watt hand dimmer</b>..... <b>\$3.00/day</b></p> <p><b>2000 watt Magic Gadgets flicker box and 2Kw dimmer</b>..... <b>\$35/day</b></p>

splitters cont.

100 amp bates male to dual 60 amp  
bates female..... **\$9/day**

*Cam-lok female suicide ground pin.*

*Ground lifters..... \$0.50/day*

*15 amp power strips.....\$2.50/day*

**L14-30 twist lock to 50 amp 240v  
California twist lock.** (3 wire only with  
open neutral) This is the adapter that  
works with a 240v 30 amp twist lock  
connector for use with our 100' 50 amp  
6/3 feeder cables. Neccesary to connect  
the feeder cables from the genny to the  
transformer..... **\$7/day**
